

LITTLETHORPE

BUS
SHELTERS

Hand built by expert joiners in Leicester

Small in footprint, huge in kerb appeal

Littlethorpe has been providing the UK with quality hardwood joinery since 1983. Using traditional joinery methods and sustainably sourced timber, our bus shelters are built to last.

A shelter is a feature within the community. It is a destination to many people each and every day. A place to pause, and to rest. We believe this place should feel safe and inviting.

At Littlethorpe, we only design and manufacture shelters that are great quality and beautiful to look at, with the ability to look seamless and intentional no matter their location.

CANTILEVER

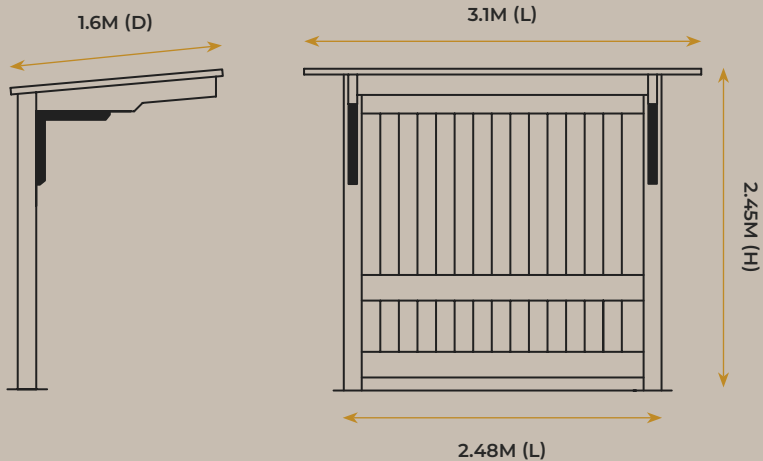

Cropston

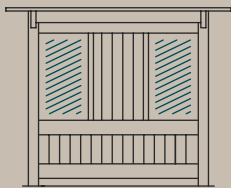

Even the smallest spaces deserve a beautiful shelter. The Cropston combines the distinctive Littlethorpe style with a minimal footprint, meaning there will no longer need to be a compromise between look and functionality.

Guaranteed against vandalism for 5 years

Shelter Guarantee

If your new Littlethorpe shelter is damaged beyond repair by vandalism, we don't think the community should suffer. Our shelters are guaranteed for five years against being kicked in or burnt down.

Toughened Glass Cover

When you upgrade to 15mm toughened glass, we cover each pane against any breakage for one year.

See full terms & conditions on our website.

Delivered assembled & ready for installation

We're here to help if you need us

Littlethorpe shelters are fully finished at our factory in Leicester, and are delivered via crane lorry to your chosen location. This means that no matter where you are, your shelter will always be Littlethorpe quality.

Installation is simple and can be carried out by a local ground-worker. Ground plans are available and we are happy to liaise directly with your chosen contractor. Upon delivery, the shelter will be lifted by the crane lorry directly into pre-prepared foundations.

An aerial photograph of a village nestled in a valley. A river flows through the center of the village, surrounded by dense forests with trees in autumn colors of orange, yellow, and brown. In the background, a small white building sits atop a hill. The overall scene is misty and atmospheric.

We're committed to looking after our planet

We believe that the future of our countryside & planet is in our hands. We're committed to protecting our planet by only sourcing sustainable materials, using water-based coatings, minimising & recycling waste through design & supporting organisations such as the FSC®.

All Littlethorpe bus shelters are built using FSC® certified hardwood. Extremely strong & durable and with excellent properties for use outdoors, our shelters are built to last.

By ensuring the wood we use in our products is sustainably sourced and FSC® certified, we are helping to prevent illegal deforestation in the Amazon, maximise carbon absorption & support local communities and economies.
